PROFILE

Software Engineer with strong foundation in Java back-end development using Spring Boot and Hibernate and basic knowledge of React.js Proven ability to quickly learn new technologies and deliver projects under tight deadlines. Experienced in Full-Stack development with exposure to IoT and Machine learning projects. Seeking to contribute technical skills and problem-solving abilities to a reputable organization.

TECHNICAL SKILLS

Programming Languages: Java, SQL, HTML, CSS, Java Script

Frameworks & Technologies: React, Spring, Spring Boot, Hibernate, Servlets, Tymeleaf

Tools & Platforms: Visual Studio Code, Android Studio, Eclipse, Spring Tool Suite, Firebase.

EDUCATION

Bachelor of Technology in Computer Engineering

Sanjay Bhokare Group Of Institutes, Miraj(Affiliated with DBATU)

CGPA: 7.2/10 | Top 10 Performer of Collage Batch

Maharashtra, India

2022-2025

Diploma In Computer Engineering

Sanjay Bhokare Group Of Institutes, Miraj

Percentage: 83.94% | Top 10 Performer of Collage Batch

Maharashtra, India

2019-2022

INTERNSHIP EXPERIENCE

Full Stack Java Development Intern

Cyber Success

Pune, India

Feb 2025 - Dec 2025

- Core Concepts of Java.
- Advance Java (Servlet, Spring Framework, Hibernate)
- SQL
- Front-End Technologies(HTML, CSS, React, Javascript)
- Aptitude

PROJECTS

Portfolio Website

Nov 2025 - Present

- Developed the Front-End using React.js
- Used React Router to render pages without reloading the page
- Working on Backend Using Spring-Boot
- Created the Page to update or change the content inside the website.(Skills, education, etc)
- Link for the website(https://slshree1.github.io/React_Portfolio/) (Demo Page)

ML & IoT Based Smart Vehicle Health Monitoring & Predictive Maintenance System

Feb - Sep 2025

- Developed a Cross - Platform Flutter App, cutting development time by 30%
- Integrated Firebase Firestore and Auth for real-time data and secure login

- Developed Machine Learning models for predictive maintenance using Python and scikit-learn
- Build complete application from scratch without prior Flutter experience through self-directed learning

Tour Booking System

Jun 2023 - Feb 2024

- Developed complete Back-End System using PHP with MySQL, database integration
- Implemented user authentication and booking management.
- Deployed application on cost - effective hosting platform while ensuring optimal performance
- Designed responsive Front-End interface for seamless user experience across devices.

ACHIEVEMENTS

- Achieved 4 Star rating in java on HackerRank Platform
- Completed Java Multithreading Certification on Infosys SpringBoard
- Consistently Ranked among top 10 performers in both Diploma and Bachelor's program.
